

MATERIALS & CONSTRUCTION

Integrated top mounted picatinny rail for iron sights or optics.

Technical polymer receiver with integrated spring loaded shell feeding device and quick removable fire control housing containing the hammer, sear and disconnector.

Spring assisted pin ejector.

Fiber reinforced flip up stock / shell funnel.

Fiber reinforced butt plate with 1", 8 durometer (A scale) energy absorbing recoil pad.

4140 steel bolt body, precision machined and heat treated **4140** steel rotary bolt head with three locking lugs.

Precision machined and heat treated **4140** barrel extension with three locking lug mortises.

Precision machined **4140** steel barrel with muzzle threaded to accept Beretta mobile / Benelli Standard Style chokes.

Precision machined **4140** steel flash suppressor with strike bezel and full length knurling.

Windage adjustable rear sight with flip up large aperture peep or big game V. Elevation adjustable front sight.*

Forward, rear and mid-point quick detachable sling swivel mounting points. Mil Spec quick detachable swivels. *

Matte black non-glare textured finish on all polymer parts.

Matte black chrome or black oxide on all steel parts.

Matte black non-glare anodizing on all aluminum parts.

Field stripping in 45 seconds, no tools required.

Technical Details

Caliber; **12 GAUGE**

Muzzle Thread; **20.5x1**

Operation System; Bullpup

Capacity; **14+1 ROUND**

Design; Bullpup design

Barrel Length; **49.8 cm**

Chambered For; **2 ½", 2 ¾" & 3" magnum ammunition**

Product Weight; **6.9 lbs (3,6 kg)**

Length; **28.3" (72,5 cm)**

Case; **N/A**

Manufacturer; **Utas Defense**

UTS-15A
12 Ga. BULLPUP
SEMI-AUTO SHOTGUNS
